

# Erich Josef Beregszaszy

## Objective

---

My primary goal is to help students better understand and apply chemistry and physics not only in the classroom, but to the world around them.

## Education

---

Sept. '10 – April '14                      University of Michigan Dearborn                      Dearborn, MI

### **Bachelor of Science: Secondary Education Certification**

- Chemistry major (DC)
- Physics minor (DE)

May '15 – December '16                      Michigan State University                      Lansing, MI

### **Master of Arts: Secondary Education (MAED)**

- Specialty – Math & Science Education

## Teaching Experience

---

Sept. '14 -Present                      Troy Public School System: Athens High School                      Troy, MI

### **Science Educator (Chemistry & Physics)**

- Plan, develop and implement lessons for 3 hours of physics and 2 hours of chemistry daily.
- Manage a classroom of 22-24 students.

June '12 - June '14                      U of M Dearborn Natural Sciences Department                      Dearborn, MI

### **Supplemental Instruction Leader**

- Facilitated peer-lead study groups for introductory chemistry & physics.
- Produced extra problems & worksheets for students as needed.

Supplemental Instruction Leader Award Winner (2014)

Jan. '14 - April '14                      The Henry Ford Academy                      Dearborn, MI

### **Student Teaching**

- Plan, develop, and implement lessons for general high school chemistry.
- Managed classroom of 20-30 students.
- Participated in Response to Intervention and Credit Recovery through the academy after school.
  - Tutored individual students and monitored student progress.

## Memberships & Qualifications:

---

- American Chemical Society: October 2012 – Present
- Metropolitan Detroit Science Teachers Association (MDSTA): October 2013-Present
- Nonviolent Crisis Intervention Certified: 2012-Present
